

THE LEADING PROVIDER OF DEMAND RESPONSE RESOURCES IN THE UNITED STATES

# NAPP's FLEXLoad™ Metering Solutions

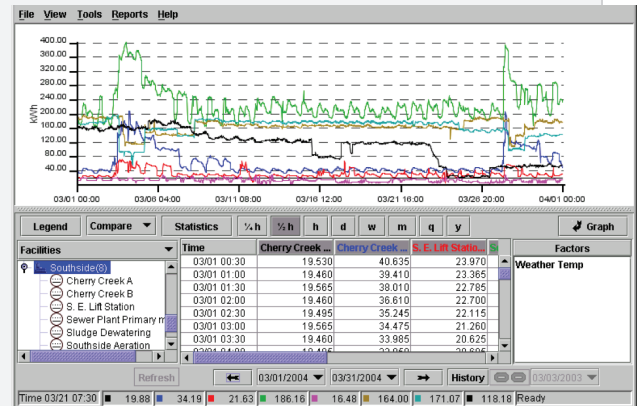

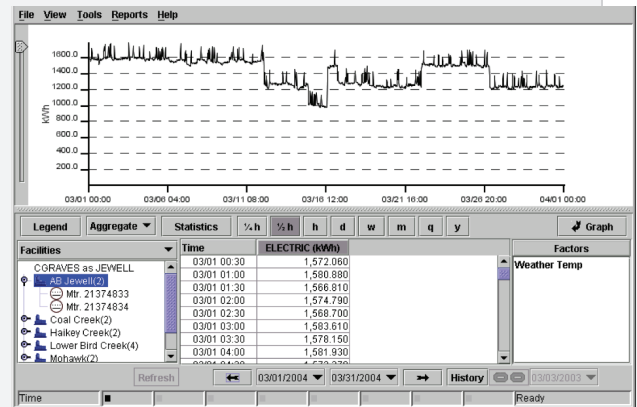

NAPP's FLEXLoad™ Metering Solutions improve performance as a Demand Response resource

When our customers are called on to reduce their electric usage, they log onto our FLEXLoad™ meter data reporting system to track their performance, which provides critical feedback on the actual load reductions compared to the commitment levels.

## NAPP's Metering Solutions

NAPP's metering solutions are provided at no upfront cost to ALL of our customers. NAPP installs and maintains its metering and communications equipment to capture and store one minute interval data. Our customers access this information through our FLEXLoad™ meter data reporting system through a secure internet connection. Our reports are easy to read and use – providing hourly updated data in 15 minute intervals.

- Secure access via the internet
- Hourly updates to your reports
- View various intervals and time periods
- Up to 5 year history
- View all of your sites in one report
- Compare over same time periods
- Tracks KW demand and KWh usage

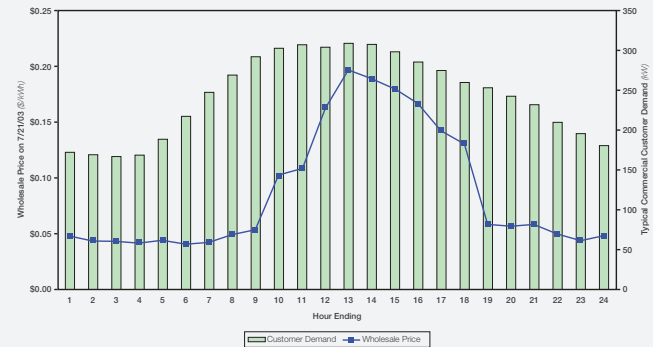

A LEADING PROVIDER OF DEMAND RESPONSE RESOURCES IN THE UNITED STATES

## FLEXLoad™ and Controls

### FLEXLoad™ and Controls

- Proprietary FLEXLoad™ Demand Response Platform monitors and tracks energy usage for each participant
- Maximizes customer performance through continuous monitoring, analysis and feedback
- Timely alerts and notifications
- Internet based communications provides visibility to asset performance

### Wireless Controls

Utilizing existing BAS/EMS systems or with a new control system, NAPP can automate your DR response for ease of participation.

### About NAPP

North America Power Partners is a leading provider of Demand Response resources across the United States. We enable our customers to participate in a range of programs including Capacity, Reserves, and Self-Scheduled Energy. Our DR solutions include advanced metering with web-based reporting tools for all our customers. NAPP provides engineering audits, automation, and controls for customers who want to automate their demand response.
